

# STRUCTURED EXPERIENCE PROGRAMME

Working towards your NDT qualification but struggling to get your practical work experience? As permitted by BS EN ISO 9712, we offer PCN approved accelerated work experience training that counts towards 50% of your total requirement needed to gain your qualification.

## THE PROGRAMME

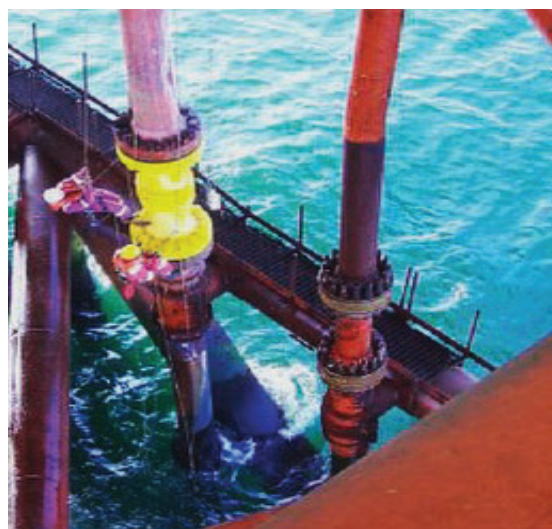

Under this programme, one day's work experience training is considered equivalent to one week's work experience.

To claim 50% of the work experience for MT, PT, VT a candidate must attend a 6 day structured experience programme.

RI must attend a 9 day programme.

For UT, PA, ET and RT, ACFM & TOFD a candidate must attend a 18 day work experience programme. These programmes can be conducted in one block or on individual days.

The remaining time must be gained under the candidate's usual industrial environment with appropriate supervision.

## PRE REQUISITE

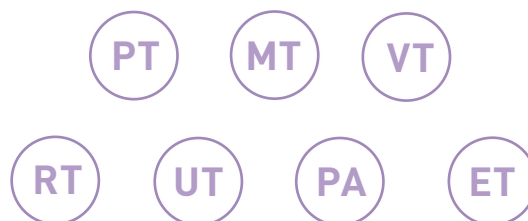

Candidates who have successfully completed PCN Level 2 training in the above methods, but do not have the work experience necessary for certification will be eligible for the structured experience programme.

## LOCATION

Available to undertake anytime at our UK facilities in Penistone and at the Advanced Manufacturing Park (AMP).

## WHAT METHODS?

We can offer the structured experience programme in the following methods:
